

SB02 Varnish & Stripping Blanket

SB02 designed for use in:

Coating and Varnishing units where precise spot coating is demanded.

Features:

- Closed cell compressible layer gives easy strip with no risk of separation.
- Specially formulated for coating lacquers and varnishes.

Benefits:

- Blanket provides more than 0.90 mm relief.
- New textile provides stable carcass layer and prevents gauge-loss problems.
- Superior surface finish provides precise coating transfer.

SB02 Technical Data	
Color	Blue
Surface Finish	Polished
Surface Roughness (Ra)	0.7 μm
Compressible Layer	Compressible
Nominal Thickness	1.93 – 1.98 mm
Shore A Hardness	80°
Micro Hardness	59
Elongation	< 1.%
